

# PIPE CARRIER KIT

## About the kit

The Pipe Carrier Kits can be installed on a wide range of tractors such as Cat D6/D7/D8/D9 and others and can transport multiple tiers of pipe.

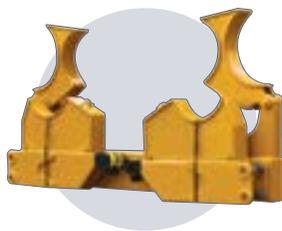

The top cradle tilts up hydraulically for loading and unloading, creating a safer work environment. The hydraulic cylinders are controlled from the cabin.

### Customized Fitting

The cradles are custom-made to fit any pipe size combination the customer requires within the machine's pipe range.

### Easy Installation

The pipe carrying kit can be partially disassembled for transport, then easily assembled back again.
